

Concentra BRE Visit

On Tuesday, October 10, the Addison Economic Development team, accompanied by the Mayor, visited Concentra, a prominent provider of workers' compensation and employment services. The team met with Greg Gilbert, EVP and Chief Reimbursement and Government Relations Officer, to discuss the company's ongoing growth and expansion. Concentra, which bills over \$2 billion in revenue annually, operates in 43 states and has been a part of Addison's business community for over 25 years. They currently occupy nearly four floors at the Spectrum Center, totaling over 100,000 square feet, and employ around 300 people.

Founded in the late 1970s as a single clinic in Amarillo, Texas, Concentra has grown into a national leader in workers' compensation care and related services. Initially focused on healthcare for injured workers, the company quickly expanded its services to meet the needs of businesses across the country. Over the years, Concentra has diversified its offerings and has become a major force in employment-related healthcare services.

In 2021, Concentra completed a full refurbishment of its Addison office space to support its expanded operations. With the company recently going public and spinning off from its previous ownership, they are now preparing for a new hiring push to support their back-end shared services, including legal, IT, billing, HR, and payroll. The visit highlighted Concentra's strong presence and ongoing commitment to growth, reinforcing their vital role in Addison's business community.
